

Hexindo Introduce Special Wrapping Design for ZAXIS-7G Hydraulic Excavator Series

Jakarta, August 9, 2024 – PT Hexindo Adiperkasa Tbk introduces ZAXIS-7G with special wrapping edition. The hexagon design with black and orange color on this hydraulic excavator emphasizes the company's commitment to the advancement of excavator technology in Indonesia, with a focus on efficient operations, safety, and environmentally friendly products.

"The special wrapping on ZAXIS-7G is also a form of the company's appreciation to every loyal Hexindo customer, who consistently continues to support the growth of our business together. Not only that, with the special wrapping, Hexindo expect to reach market needs more widely, especially the mining industry in Indonesia," said Hexindo Sales Director, Mr. Dwi Swasono.

Special wrapping for ZAXIS-7G will be present on hydraulic excavators in the 30 ton, 40 ton, and 80 ton classes, namely ZX350H-7G, ZX490LC-7G, and ZX890LCH-7G. This special wrapping hydraulic excavator is presented exclusively by Hexindo and is only available in limited quantities. Hexindo continues to emphasize the orange color in the special wrapping which is part of the color identity of Hitachi Construction Machinery, Japan called 'Reliable Orange'. Furthermore, the color chosen for this special wrapping symbolizes the company's commitment to being a friendly, trustworthy company and the ability to always be reliable partner for customers to grow together.

"Although it will only be present exclusively, we ensure that this special wrapping hydraulic excavator still carries the complete specifications of the ZAXIS-7G that is low fuel consumption, ConSite Air solution technology, and the Aerial Angle system that increases safety and comfort," said Mr. Dwi.

Key Features of the ZAXIS-7G Hydraulic Excavator Series:

- **Fuel Efficiency:** The hydraulic system and pump control of the ZX350H-7G, ZX490LC-7G, and ZX890LCH-7G have been upgraded to improve efficiency and reduce fuel consumption. Compared with the ZAXIS-5G series models, the fuel consumption of the latest unit is improved. Fuel consumption on ZX350H-7G has decreased by 16% (PWR mode) and 15% (ECO Mode), ZX490LC-7G has decreased by 14% (PWR Mode) and 24% (ECO Mode) and the fuel consumption of the ZX890LCH-7G has decreased by 17% (PWR mode) and 18% (ECO Mode).
- **ConSite Air:** With an over-the-air (OTA) communication system, ConSite Air enables remote monitoring of machine conditions and software updates, improving repair and operational efficiency.
- **Safety with Aerial Angle:** This system uses a monitor in the cab to display the area around the unit up to 270 degrees, to improve operational safety. The addition of a handrail on the top of the machine also improves safety when conducting inspections or maintenance.

The leading features that are still presented on the ZAXIS-7G special wrapping strengthen Hexindo's commitment to contributing to business development in the Indonesian heavy equipment industry. In addition, Hexindo also continues to be determined to be present as a reliable partner for its customers in Indonesia.

"With the specifications we bring, this hydraulic excavator unit is still able to increase business productivity, reduce operational costs, and pay attention to user safety and security. Supported by

more than 50 branch offices and projects throughout Indonesia, we will also continue to ensure optimal after-sales service for loyal Hexindo customers," concluded Mr. Dwi Swasono.

About Hexindo

Founded on November 28, 1988, PT Hexindo Adiperkasa Tbk is committed to be the best provider of heavy equipment products and services such as excavators, wheel loaders, dump trucks and others with prominent brands such as Hitachi, Bell, Foton, Camino, Dynapac, Morooka and Waratah. PT Hexindo Adiperkasa Tbk is spread across more than 50 outlets throughout Indonesia and continues to strive to provide integrated solutions and services related to heavy equipment needs for the mining, construction, forestry and plantation industries.

Hexindo has a number of facilities with full services such as remanufacturing, welding centers, training centers, online services and others. To strengthen its existence and ensure more professional company management, Hexindo has listed shares on the Indonesia Stock Exchange with the share code HEXA since February 13, 1995.
